

SOVESH MOHAPATRA

soveshmohapa@umass.edu ♦ +1 (857) 389 - 8786 ♦ soveshmohapatra.github.io

Education

University of Massachusetts Amherst, USA

May 2023

Bachelor of Science in Computer Science, Mathematics; Bachelor of Arts in Linguistics (GPA: 3.8/4.0)

Relevant Courses: Data Structures and Algorithm, Natural Language Processing, Discrete Mathematics, Computational Linguistics

Honors: Chancellor's Award, Dean's List, IALS Core Intern (Top 0.1% undergraduate students)

Professional Experience

UMass Amherst Department of Biomedical Engineering, IALS Core Intern

2021 - Present

- Investigated effects of brain stimulation on the brain structure (connectivity, fractional anisotropy, and diffusivity) using image analysis software (SPM12, FSL) for diffusion tensor images of 50 patients.
- Studied the effects of brain stimulation on the real time functional connectivity changes in the brain circuits using the fMRI image analysis of 70 patients.
- Developed neural network models to predict the brain lesions in T1w, T2w and fMRI images with model's train loss at -0.7983.
- Developed machine learning models for prediction of the extent and impact of non-invasive stimulation in human brain.

Massachusetts Institute of Technology CSAIL, UROP Intern

Summer 2021

- Developed machine learning models (Accuracy: 78%) to classify the different sentimental level of sentence.
- Built DL model to generate language descriptors (60% human understandability) from the visualizations.

Indian Institute of Technology Roorkee, Research Intern

2018 - 2020

- Repurposed drugs for the treatment of COVID-19 (Accuracy: 78%) and Chagas disease (Accuracy: 81%) by using classification models based on pharmacophore fingerprints.
- Built regression model (RMSE: 0.92) to predict quantum efficiency of solar cells using in-house data.

Selected Publications and Conference Proceedings

- Mohapatra, S., et al., A deep learning approach to identify the lesions in the brain, (2022) [Extended Abstract]. (Submitted to Machine Learning in Medical Imaging, ACML 2022) ([link](#))

- Mohapatra, S. & Babel, S., A Critical Review on Machine Learning Algorithms, and their Applications in Pure Sciences, (2019) Research Journal of Recent Sciences. ([link](#))

Leadership Experience (selected experiences at UMass Amherst)

Brett and Brooks Cluster Residents Association, Resident Assistant

2021 - Present

- Managed \$2,000 for 20 residents, with expenditure for in-person/virtual social and sports events, subscriptions, and facility planning.

Anti-Racism/Bias Training Committee, Member

2021 - Present

- Prepared training module (5 hours) based on understanding different incidents of racism happening around and ways to handle for the joining resident assistants and peer mentors.

Technical/Language skills

Languages: English (Speak, Read, Write), Hindi (Speak, Read, Write), Odia (Speak, Read, Write)

Programming/Scripting Languages: Python (Deep Learning using TensorFlow/Keras, PyTorch), LaTeX, Java, Java Script

Software Packages: Origin, MATLAB, COMSOL, SPM12

Extra-Curricular Achievements

- Best Finance Hack at HackUMass IX – Project Titled - *Emotions Manipulate the Future* 2021
- President of India Medal for Exceptional Performance in the field of Innovation. 2016
- YONOSBI20under20 for being the best scientist and author under the age of 20 in India. 2019
- Three times TEDx Speaker ([TEDxNITSrinagar](#) | [TEDxRamjasCollege](#) | [TEDxManipal](#)). 2018, 2019

Interests

Sports - Soccer: UMass Intramurals, Table Tennis: UMass Intramurals
